Law how universal trends toward the unification of law were strengthening in the early 1930s. Similarly, we need to explore the possibility of a globalized Japanese Studies that can respond to universal problems, a field grounded in *studiositas* that delves deeper than relativistic *curiositas* and resists the pressures of commodification. There is no better place to begin than with Tanaka's call for scholars to locate "Japanese culture in its rightful place as one part of global human culture."

(Submitted in English)

June-November 2015
