

## Library

The Nichibunken Library collects a wide range of materials needed for research on Japan and makes these materials available to researchers. It also provides access to Japanese studies-related information of various kinds. The 610,000 titles in the library can be searched via the OPAC, CiNii and OCLC WorldCat (As of March 31, 2024). Researchers outside Nichibunken may use the inter-library loan system to apply for document copying and loans of books and other materials. The collection prioritizes books about Japan written in other languages and translations of Japanese works originating in Japan and overseas. In addition to books and periodicals, the collection includes colored photographs from the late Edo and Meiji periods, old maps, and video, DVD, and CD audio and visual materials.

## Visiting Research Scholars and Fellows

As an international research center, Nichibunken opens its doors to the world by inviting many scholars from foreign countries to carry out international and interdisciplinary research related to Japanese culture. The foreign scholars are classified either as “visiting research scholars,” who are accepted for periods from three months to one year and receive a salary from Nichibunken, or as “visiting research fellows,” whose income is provided by public and other foundations.

In addition to carrying out their own research, foreign scholars at Nichibunken take part in team research projects organized by Nichibunken professors and deliver presentations at seminars, forums, and international meetings. They also have the opportunity to publish the results of their research in Nichibunken publications.

We hope that the close collaboration between these foreign scholars and the professors at Nichibunken and members of their research teams will become the base for the further development of Japanese studies in the world.

## About Nichibunken

The International Research Center for Japanese Studies (Nichibunken) was founded in 1987 to pursue international, interdisciplinary, and comprehensive research on Japanese culture and to provide research cooperation and support for Japanese studies scholars around the world.

In addition to research on the distinctiveness of Japanese culture, Nichibunken emphasizes the perspectives of comparative studies and cultural exchange. Its professors lead diverse interdisciplinary team research projects on Japanese culture that bring together specialists from a wide range of fields from within and outside Japan. Nichibunken engages in international research collaboration of various kinds such as sharing research information with scholars and research institutions around the world, and sponsoring the participation of its faculty at scholarly meetings held overseas.

## PhD Program at Nichibunken

Nichibunken is the institutional home of the Japanese Studies Program, Graduate Institute for Advanced Studies, SOKENDAI. The Program promotes interdisciplinary and comprehensive Japanese studies education and research from an international perspective. Students from abroad as well as from Japan enroll in the doctoral program. Under the special inter-university researchers system, the Program also accepts and trains graduate students recommended by other universities.
